

NEWS RELEASE

MxH Corporation Joins ULDAGE Patent Pool For
Japanese CATV-UHDTV Broadcasting Standards

(Tokyo Japan – July.1. 2025) ULDAGE Inc. announced today that MxH Corporation has joined the patent pool for CATV-UHDTV Standards making its essential patent licenses available through ULDAGE Inc. The joining of MxH Corporation to the pool now makes the number of companies 10* which are licensing their essential patents for CATV-UHDTV Standards through ULDAGE Inc., resulting in further simplification of the complicated patent issues for those who use CATV-UHDTV Standards.

ULDAGE Inc. welcomes having additional holders of essential patents so as to further expand the program.

The essential patents owned by MxH Corporation will be published as from July 1, 2025 on ULDAGE's website.

- *INFOCITY, Inc., JVC KENWOOD Corporation, Maxell, Ltd., Mitsubishi Electric Corporation, MxH Corporation, NEC Corporation, Nippon Hoso Kyokai (NHK), Sony Group Corporation, Toshiba Corporation, TVS REGZA Corporation.

About ULDAGE Inc.

ULDAGE Inc. was established in July 2006 for the purpose of providing tools for revitalizing business by creating a competitive environment through collaboration and resolution of patent issues in this complex digital age. ULDAGE Inc. undertakes its business by granting licenses for essential patents held by multiple parties in a single package (by the patent pooling method) which offers convenience to both patent holders and business operators.
